iTD Product solutions

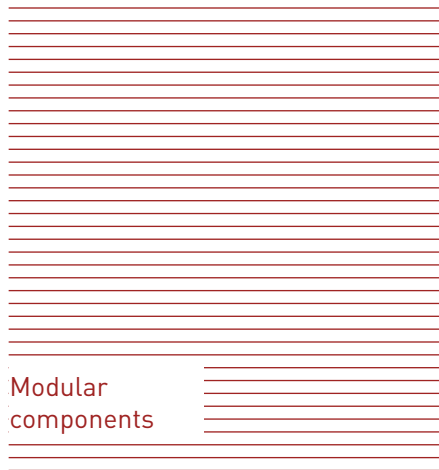

PRODUCT DEVELOPMENT WITH AN INDIVIDUAL AND TIMELY RESPONSE

product solutions

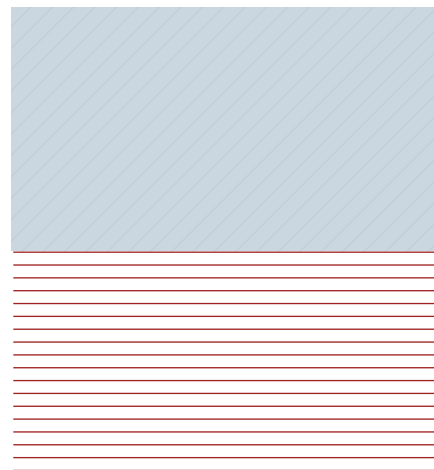

MODULAR

Modular product configuration

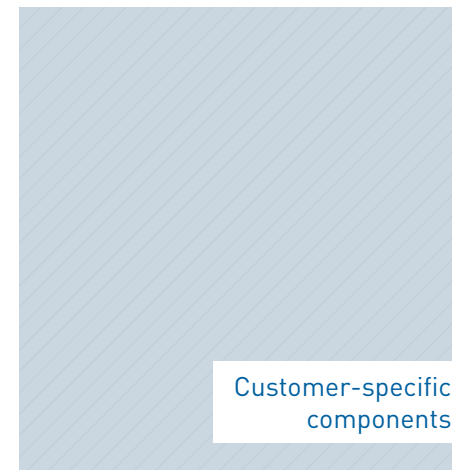

HYBRID

Functional and visual adaptations

CUSTOM

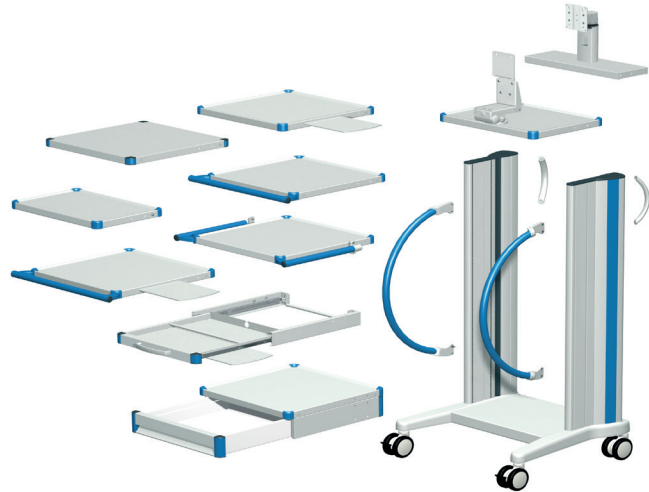

Customized development of products

Level of customization, costs and time to market

Modular

- + Concepts and series production within an extremely short period of time
- + Countless configuration options for numerous applications
- + Simple adaptations to corporate design, for example using colors
- + Adaptation to future requirements

Hybrid

- + Combination of modular and customer-specific components
- + Simple to complex customer-specific adaptations
- + Extensive adaptations to corporate design

Custom

- + Customer-specific development of products
- + Maximum possible adaptations to the respective application
- + Completely individual design

Project handling and customer care

RELIABILITY AND COMMUNICATION ON EQUAL TERMS

One team for the customer

- + Competent consultancy
- + Quick and reliable project implementation
- + Assistance with approval processes worldwide

Quality and safety

UNCOMPROMISING REQUIREMENTS FOR QUALITY AND SAFETY

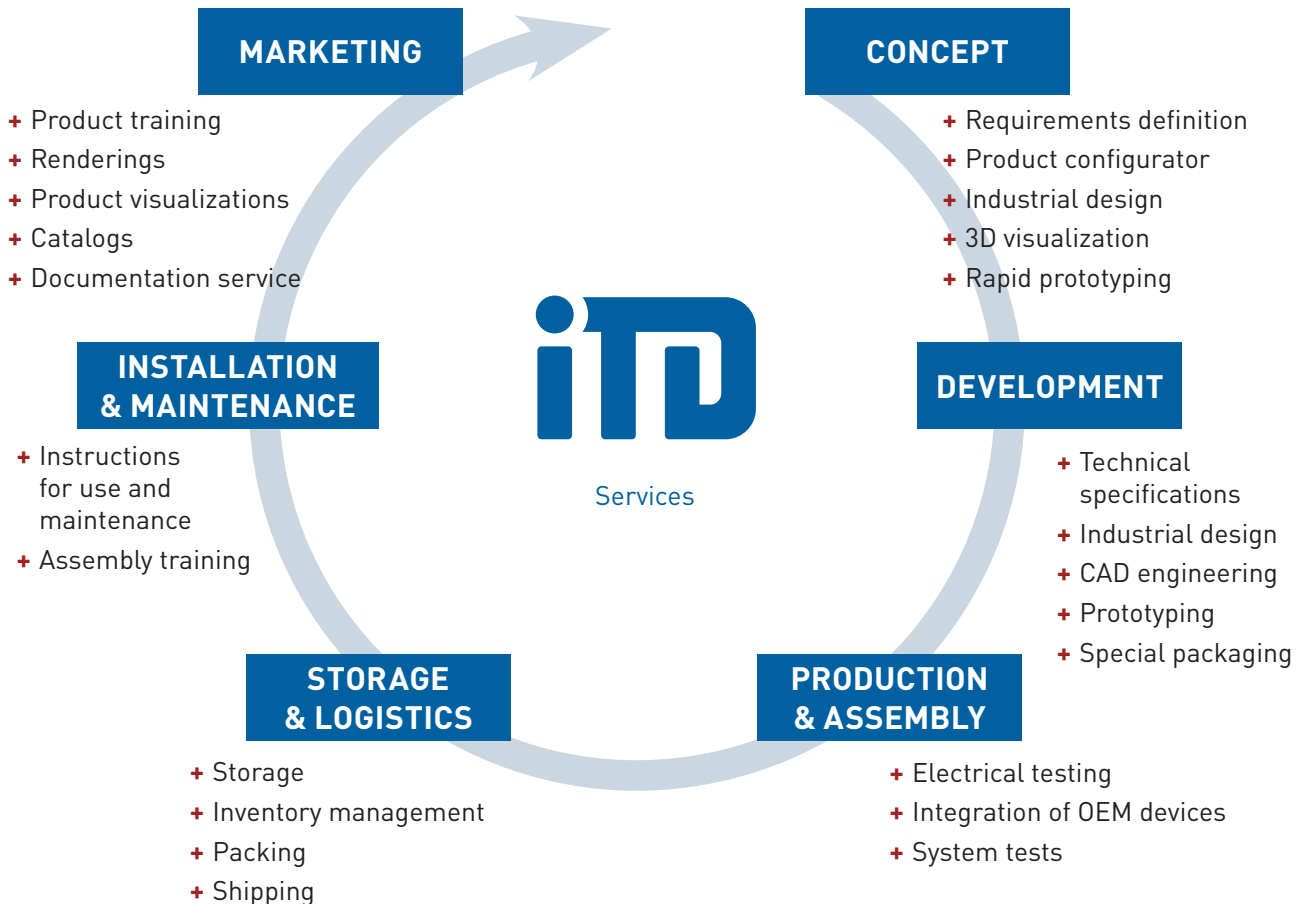

Quality and safety mean

- + Development of products to the highest international standards and norms
- + Certified quality in accordance with EN ISO 13485 and EN ISO 60601-1
- + Conformity with MDR 2017/745
- + FDA-registered (3007713438)
- + Intensive tests for safe everyday use

Holistic services

QUICK TO MARKET THANKS TO OPTIMIZED USE OF TIME AND RESOURCES

Global structures with local resources

SECURE SUPPLY CHAINS AND CONTACT PERSON ON SITE

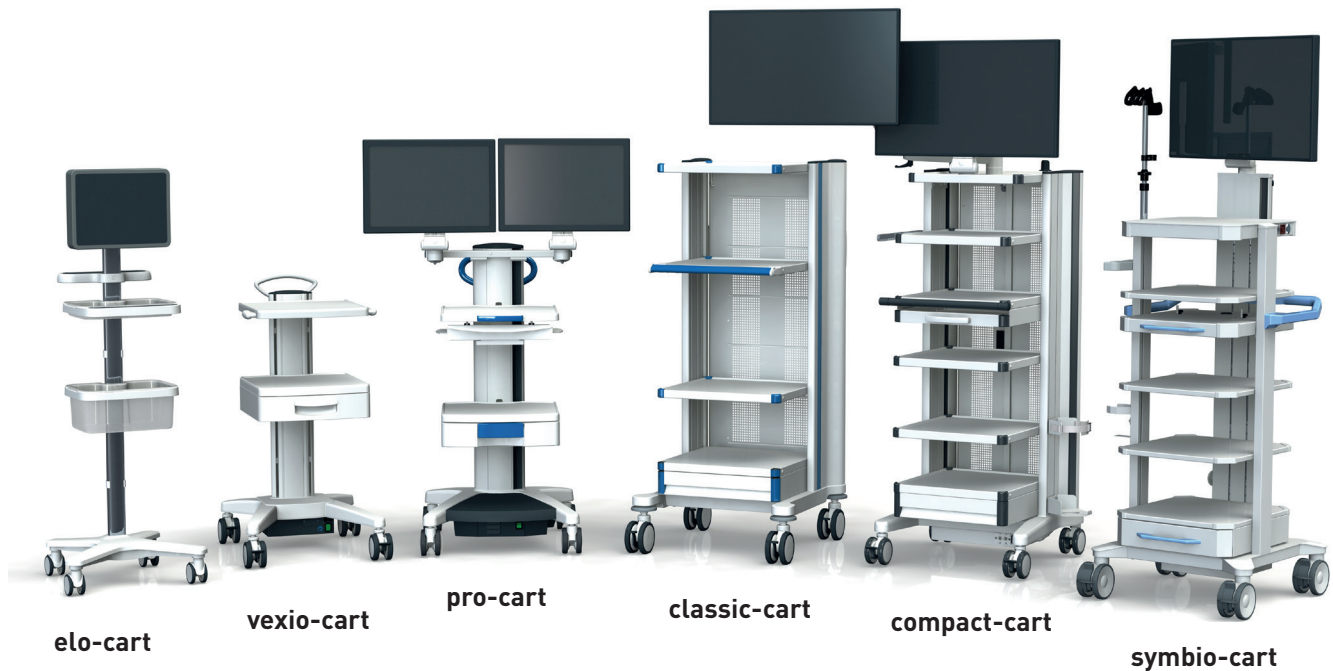

- + Global collaboration
- + Identical quality standards
- + Strong local structures

- › Quick response times
- › Supply chain security (local sourcing)
- › Regional expertise for product requirements and approvals

Mobile carrier systems

iTD EQUIPMENT CARTS FOR INDIVIDUAL APPLICATIONS

Fields of application

- + Endoscopy
- + ECG
- + Surgery
- + Diagnostics
- + Patient monitoring
- + Laboratory technology
- + Surgical equipment
- + Navigation and robotics
- + Ultrasound
- + Ventilation

Modularity and compatibility

- + Modular principle
- + Quick conversion and retrofitting

Design and ergonomics

- + Adaptation to color scheme of corporate design
- + High degree of user friendliness

Quality and safety

- + High load capacity and stability
- + High-quality and hard-wearing surfaces

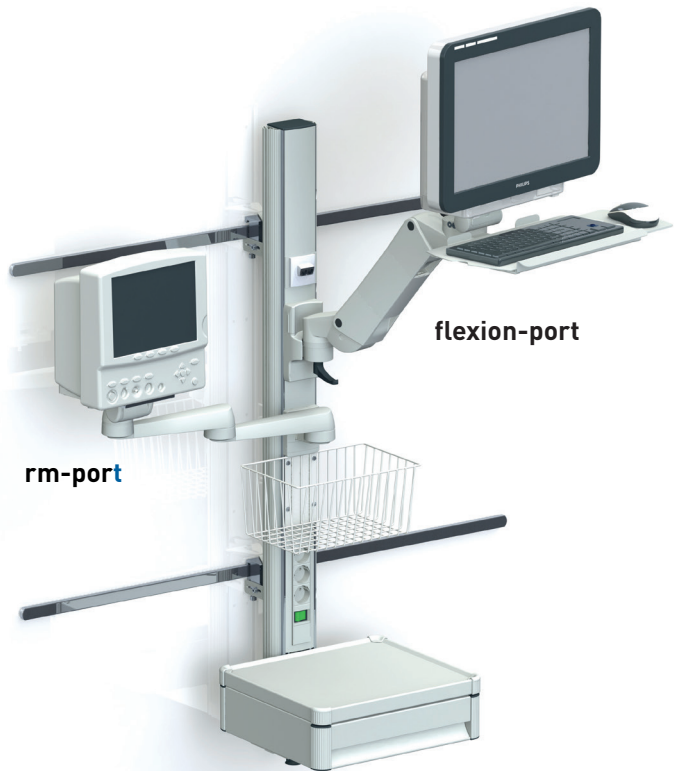

Cable management and electrification

- + Separate routing of power and data lines
- + Accommodation of excess cable lengths
- + Country-specific sockets
- + Isolating transformer

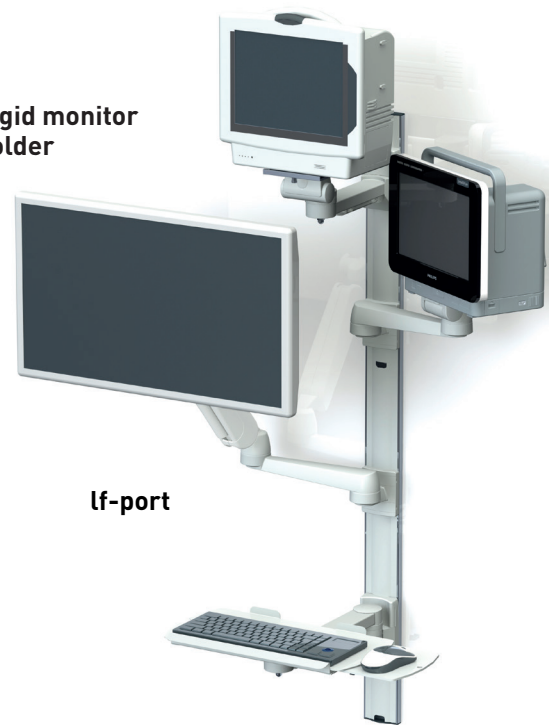

Stationary carrier systems

iTD SUPPORT ARMS WITH A HIGH DEGREE OF FLEXIBILITY

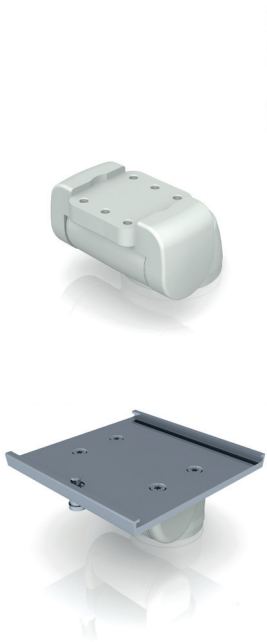

Rigid monitor holder

Universal mount for equipment

- + Suitable adaption of all devices
- + Customer-specific adapter available

Modular connection

- + Simple and time-saving assembly on existing infrastructure
- + Manufacturer-specific standards

Quality and safety

- + High load capacity and reliability
- + Durable surfaces for long-term use

Design and ergonomics

- + Space-saving and flexible for confined working environments
- + Simple and intuitive to use

iTD Customer benefits

EIGHT FEATURES FROM WHICH YOU CAN BENEFIT

High-quality products with certified safety standard

Quick and cost-efficient implementation of requirements: from prototyping through to series production

In-depth application knowledge

Customization even for small series

Global customer care with regional contacts

Support with approval process in each region

Reliable handling of projects and orders

Higher adherence to delivery times thanks to local production sites and supply chains

iTD Online tools

A STEP-BY-STEP CONFIGURATION OF THE PRODUCT

Product configurator

- + Intuitive user surface
- + Step-by-step product configuration
- + 3D product animation
- + Automatic testing of stability
- + Price calculation for registered users
