MOUNTING SYSTEMS

Medical mounting system modul-port

Different iTD profiles in lengths from 320 mm to 1920 mm

iTD profile

"Economy"

A wide range of monitor mounts to accommodate standard monitors

Monitor holder with VESA 75 / 100

Monitor holder with universal adapter

Large portfolio of accessories and components for various applications

Storage basket on standard runner

Bed mount with universal holder

high, double

rigid support arm

Mechanical / electrical

height adjustment

OVERVIEW MEDICAL MOUNTING ARMS

Pivot arms

rm-port

Can be swiveled, tilted and rotated wide range of variants with horizontal

swivel range of \pm 90°, tilt range of up to up to $\pm 20^{\circ}$ and rotatable by ± 5

Various arm lengths -

swivel arms single in 250 mm and 325 mm and swivel arms double in 250 mm + 250 mm and 325 mm + 325 mm

Effortless swiveling of even heavy screens -

high ease of use and reliability due to maintenance-free joints

Numerous interfaces -

for mounting standard monitors

Numerous interfaces -

for mounting on the hospital infrastructure

Integrated mains lead cleats -

protect the cable against being pulled out

Pivot arms

mf-port

Various lengths -

available as single or double arm. customizable in length (L1 and L2) and number of joints

Adjustable swivel joints -

adjustment of friction within the joints

Numerous interfaces -

for mounting standard monitors like VESA 75 / 100, universal adapter, table top mount adapter

Numerous interfaces -

for mounting on the hospital infrastructure

Variable height support arms lf-port

Different lengths -

enable a flexible and ergonomic design of the workplace

High level of operating comfort and reliability due to integrated spring force support

Large-volume cable ducts for data and power cables

Numerous interfaces -

for mounting on the hospital infrastructure

Rapid assembly -

specially developed rapid fasteners

flexion-port

Different lengths enable a flexible and ergonomic design of the workplace

Effortless lifting of heavy monitors high operating comfort and reliability due to spring force assistance

Numerous interfaces -

for mounting standard monitors

Large-volume cable ducts for data and power cables

Numerous interfaces for mounting on the hospital infrastructure

Variable height support arms
